# Professional Experience Report - CONSOLIDATING Respondent: Education - Consolidating Student: Agency: Placement Date: Placement Result: Experience: Allocation Group: Duration:

As a supervising teacher you are required to complete a report at the end of each placement, providing an assessment of performance in a number of key areas and comments as an elaboration of that assessment. The preservice teacher should be present while you complete the report on the last day of the placement. Where 2 supervisors are assigned to a preservice teacher, supervisors may elect to complete one report together or 2 separate reports.

Please confirm that the placement dates and total placement days shown in the blue banner above are correct. If the dates or total days are incorrect, you must contact the placements team, education.placements@latrobe.edu.au, so we can update these details before you complete the report.

It is essential that the supervising teacher report is completed as soon as possible. It indicates whether a preservice teacher has attained satisfactory skills in the relevant areas, which is a hurdle requirement of the subject, and without it, a grading cannot be made. Once the report is submitted, the SPC should email the Supervision Claim Form to education.placements@latrobe.edu.au COURSE STAGE: Consolidating

This report template provides a mechanism for reporting on preservice teachers' (PSTs') development while completing the professional experience components of their initial teacher education program (ITE). The reporting template references the Australian Professional Standards for Teachers (APST) including descriptors most relevant to development expectations at different stages of in an ITE program.

The APSTs descriptors have been organised into five key areas within this report to support supervising teachers' assessment and judgement of PSTs' progress in relation to:

- 1. Planning for learning and teaching
- 2. Teaching effectively
- 3. Creating and maintaining supportive learning environments
- 4. Assessing and providing feedback for learning
- 5. Demonstrating professional and ethical conduct

The report has been developed as a collaboration between Victorian Universities and the Victorian Department of Education to provide a consistent reporting framework for professional experience placements.

Expectations Supervising Teachers are expected to:

- Engage in collaborative and reflective conversations with the PST in regard to their teaching practice
- · Conduct a professional conversation and provide written feedback to the PST mid-way through the placement (see Section 6)
- Assess the PST's progress using the APST descriptors for the stage and provide progressive feedback to the PST on their development during the placement
- Facilitate opportunities for the PST during the placement to encounter professional learning opportunities relevant to their development of the APSTs
- · Make professional judgements about the PST's progress towards attainment of the APST descriptors at the completion of the placement
- Liaise with the university/provider in relation to professional experience processes and consult as required

Preservice Teachers are expected to:

- Complete the report in collaboration with the supervising teacher through ongoing professional conversations
- Take part in a professional conversation mid-way through the placement and write a written reflection (see Section 6)
- · Work within your university processes and expectations for the placement
- Engage in self-reflective practice
- Participate in collaborative and reflective conversations with your supervising teacher (and/or other school/education setting colleagues) in regard to your teaching practice

Assessment and Recommendation

Assessment Ratings Scale for APST Descriptors

Supervising teachers should apply professional judgements using evidence of the PST's demonstrated knowledge, practice, and engagement in relation to the expected APST descriptors for the stage. Consideration should be given for the placement context and opportunities to encounter relevant experiences enabling the PST to demonstrate the APST.

Assessment Scale for Descriptors

Exceeds (E) APST descriptor has been met above expectation

Met (M) APST descriptor has been met

Not Met (NM) APST descriptor has not been met

Not Encountered (NE) No opportunity to meet the APST descriptor

Not Met (NM) The student has not demonstrated the professional standard at a relevant level.

Responses

If a Pre-service Teacher is awarded an **NM** for any of the standards they must receive a "Not Satisfactory" or "Require further discussion regarding decision" overall result.
