

Standard placement dates for 2024

As securing placements relies on the willingness of schools/centres to provide placements, these dates should be regarded as indicative until confirmation is provided by the Professional Experience Team. Where placements are unable to be provided to individual students in these dates, the placement team will communicate with you and negotiate alternative dates.

The Course Year corresponds to full time students progressing 'normally' through their course, as described by the relevant course map. ***Total Placement length and dates may vary, depending on your course requirements.**

Part-time, teach-out or students who have transitioned to a new course will undertake placements for the relevant units in the dates described below, and should refer to the course map or their individual study plan as total placement days required may vary. Units that may require variation in total days and dates include EDU3001, EDU3002, EDU4007, EDU5013, EDU5017 and EDU5025.

Students will only complete one placement unit based on the instance they are enrolled in. E.g. If enrolled in EDU4007, you will complete one instance of the placement unit in the semester you have enrolled.
